 State Training Coordinator

Re: Training Calendar for TARS Rescue College

Attached are all completed/scheduled classes from July 1, 2021, through current. Some of these are department only courses, some are local area only courses, and the remainder are open enrollment courses listed on the TARS website under events. As per the request of some of the membership surveys, here is a list as of today of where the Rescue College Training program has been or will be in the coming months. At this time, we are still actively scheduling classes at the request of host agencies so if you are interested in hosting a class, please contact me at the State Office or via email.
